

FAQ

Does GLP Pharmacy compound the medication at the pharmacy?

No, we leave that to the experts at an FDA approved 503B facility.

Is there a difference between compounded products and the commercially available items?

Both products are the same active ingredients.

Do I need a prescription for compounded GLP-1 products?

Yes, the FDA requires a prescription from your prescriber or we have access to a telemedicine doctor.

How does my prescriber send a prescription to GLP Pharmacy?

We have detailed instructions for prescribers on our website www.glp-pharmacy.com They may ecribe, fax, or call us.

Can I pick up my prescription at GLP Pharmacy?

Absolutely. Our hours are Monday to Friday 10am to 5pm

Are supplies and shipping included in the price?

At GLP Pharmacy, we believe in transparent pricing. All supplies needed and UPS shipping is included in the price of the prescription.

Why can I only get one month at a time?

Our product is stable for 56 days at room temperature. To offset this potential inconvenience, we pay for UPS shipping.

Can you ship my prescription outside of Michigan?

At present time we are only licensed in Michigan and Wisconsin. We have pending licenses in several states and will update as soon as possible.

Can I use my HSA/Flex Spending cards at GLP Pharmacy?

Absolutely! These products require a prescription, therefore are HSA eligible.

Does GLP Pharmacy fill other medications like a regular pharmacy?

GLP Pharmacy focuses only on Compounded GLP-1 medications.
